Wajdi Abdulrahman Ahmed Saeed

Full Stack Web Developer | Laravel, PHP, Node.js ,React,Next.js

Taiz, Yemen |phone: +967738243364 |Email: wajdialsarori22@gmail.com | GitHub: https://github.com/Alsrory | LinkedIn: https://www.linkedin.com/in/wajdi-alsarori-43246a214 | Portfolio: https://alsarory.netlify.app/

Objective

Full Stack Web Developer with a strong focus on Back-End development using Laravel, PHP, and Node.js. Experienced in building RESTful APIs and scalable systems, while also proficient in modern front-end frameworks like React.js, Next.js, and Tailwind CSS. Committed to writing clean, maintainable code and contributing to high-impact web applications. Eager to join a team where I can apply my skills and continue growing in both back-end architecture and full-stack development.

Education

Bachelor's Degree in Information Technology
Faculty of Engineering and Information Technology, Taiz University, Yemen
2017 – 2022

Certifications

Google IT Support Certificate
Completed: December 23, 2022
Issued by Google via Coursera
Verification: coursera.org

Backend Engineering with Node.js – *Manara (Feb 2025)*
Gained hands-on experience in building RESTful APIs, Express.js, authentication, and database integration. Completed practical backend projects focused on best practices and production readiness.

Verification: Manara.tech

Skills

Technical Skills:
• Back-End: Laravel, PHP, Node.js, Express.js,
• APIs: RESTful API Design & Integration
• Front-End: HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Responsive Design

- Databases: MySQL, MongoDB, PostgreSQL, Oracle , SQL Server
- Tools: Git, GitHub, Postman, VS Code, Composer, NPM , Swagger
- Cloud: Basic AWS/GCP knowledge
- Other: Python Scripting

Soft Skills:
- Problem-Solving & Critical Thinking
- Continuous Learning & Self-Development
- Teamwork & Collaboration
- Communication Skills
- Project Management & Task Organization

Experience (Projects)

- Charity Web Platform

Full-stack Charity platform built with React/Next.js (front-end), PHP& Laravel (back-end), and RESTful APIs. Features include:

- User authentication & authorization (roles: user/admin)

- CRUD operations for charity projects, dynamic routing

- Admin panel for project/user management

- MySQL database integration

- Hosted on GitHub, with README and deployment scripts
GitHub Link : Github

- Python Automation Scripts
  Developed Python scripts to automate system admin tasks such as file cleanup, log monitoring, and email alerts.
  GitHub Link : Github

Languages
- Arabic: Native

- English: Professional working proficiency .
